

Tutorial: Purchasing and Downloading

1. On the product page, select the license option you need and click **Buy Now**. The Printable Marketplace has streamlined the checkout process, so you can view, purchase, and download all from the same page, without redirecting to a shopping cart.

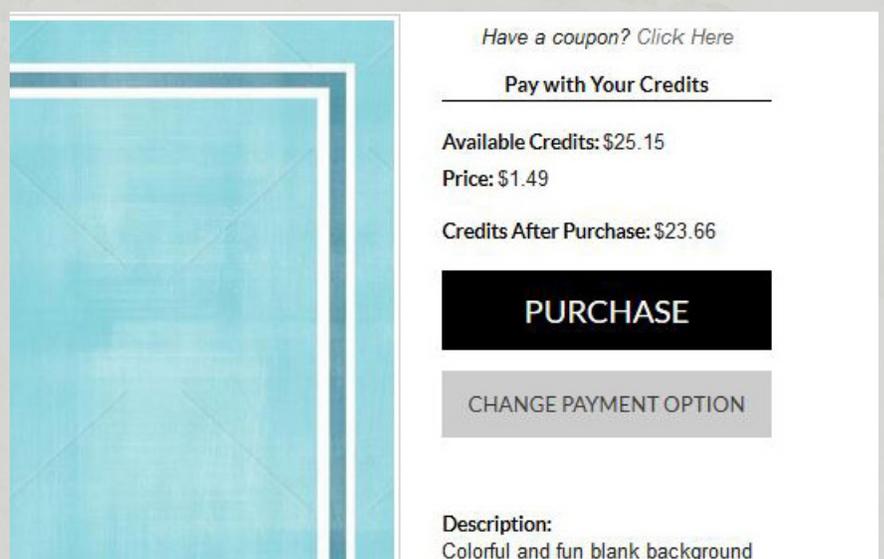

2. After clicking Buy Now, you will have three payment options. All options are quick and easy, and we'll walk you through each option in this tutorial.

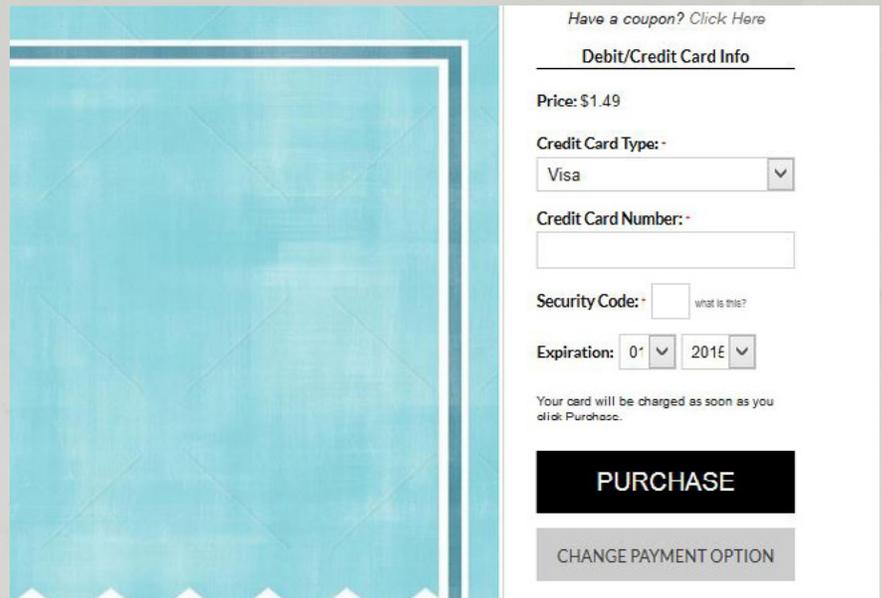

3. The first option uses credits you have already purchased. (After you create a free account, under the My Account menu, you can choose Add Money to Account. There you can purchase credits to use on any file on the site.) Once you click **Pay With Credits** and **Purchase**, the cost of the file is deducted from your available credits.

Note: The free samples on the site should all be downloaded with the Use Credits option. PayPal and credit cards have a hard time processing transactions with a cost of \$0.

4. The next option is **Pay with Card**. If you choose that option, you will simply type in your card information and click Purchase. Our server does NOT store your card info permanently for security.
